

Estimated average thicknesses

Notes:

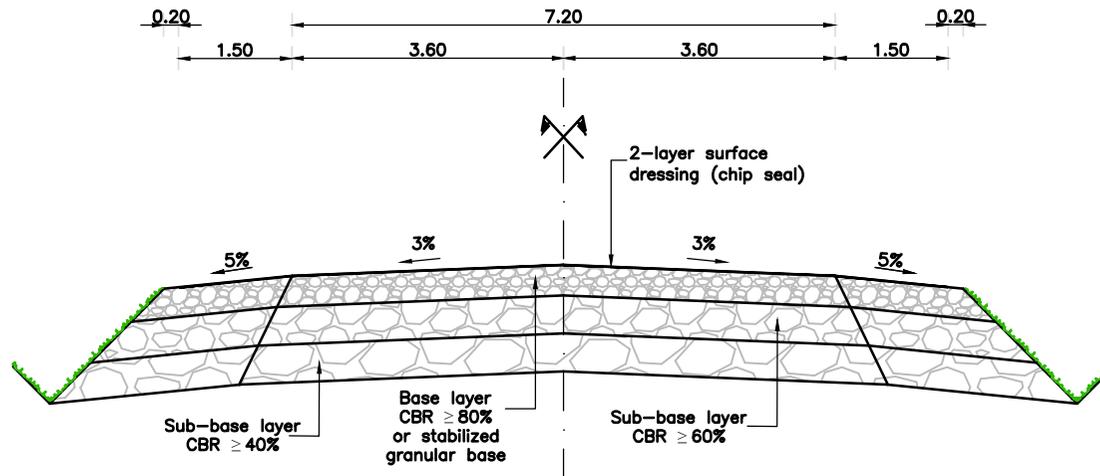

Rural Road with low traffic

- CBR 80 base thickness 0.15 m
- CBR 60 subbase thickness 0.15 m
- CBR 40 subbase thickness 0.20 m

Rural Road

- Stabilized granular base (without cement) thickness 0.20 m
- CBR 60 subbase thickness 0.15 m
- CBR 40 subbase thickness 0.20 m

Type C:
RURAL ROADS
(surface dressing)

Version
23.10.2017

Revision	Explanation	DATE	DESIGNER	DATE	ACCEPTOR
 MINISTERIO DE TRANSPORTE Y OBRAS PÚBLICAS		 TRACK		Railway project, Pre-engineering, Phase 2 Typical cross section Type C RURAL ROADS (surface dressing)	
DESIGNER LindgTo	DRAWER LindgTo	DATE 5.10.2017	Elevation reference system Local orthometric height		Coordinate system WGS 84, UTM 21 South
